Reference Works

Notable Playwrights

- Rollyson, Carl, ed. R 809.2 Not (2005)
This 3-volume source is a good starting point for research on major dramatists of Western civilization from Classical Greece to the 20th century. It provides biographical information, a summary of each writer's achievements, a list of plays, an in-depth analysis of each major play, and recommended sources for further reading. While most of the playwrights represented are American or British, a few well-known playwrights from other countries are included. The geographical index at the back of volume 3 allows the user to find writers by country. A separate index allows the user to look up playwrights that are or were part of a particular artistic movement or historical epoch.
