

1940 Census

The 1940's census is now available online through the National Archives. To locate an individual without browsing the census for the entire City of Waterbury you need to have the enumeration district where the individual lived in 1940. To find the enumeration district you first need to have the street address where that individual lived in 1940. Also the Church of Jesus Christ of Latter-day Saints website has lots of information including the 1940 census searchable by name. <https://familysearch.org/>

OR

If You Need:

Look here to find it:

Street Address

1939 or 1940 Waterbury City Directory (On microfilm in the Library)

Enumeration District
